

COMPLIANCE, AUDIT & RECORDING • ENTERPRISE

Every Session Accountable, Every Record Ready

Policy-driven recording, a complete audit trail, and verified interpreter credentials—so when compliance, legal, or an auditor asks, the answer is already documented.

Whether it's an IEP meeting, a patient consultation, a court proceeding, or a government service, SRH helps your team communicate without delay.

TRUSTED BY ✓ Schools ✓ Government ✓ Healthcare ✓ Courts ✓ Enterprises

THE CHALLENGE

In regulated settings, “trust us” isn’t enough. When a session is questioned—a dispute, an audit, a records request—you need proof of what happened, who interpreted, and whether they were qualified. Scattered notes and email don’t hold up.

THE SOLUTION

SRH captures the trail automatically. Sessions can be recorded by policy, every action is logged, and interpreter credentials are verified and on file—so the evidence is there as work happens, ready the moment it’s needed.

FROM SESSION TO EVIDENCE

1

Set the Policy

Decide when recording and retention apply—by client, service, or setting.

2

Work Is Logged

Every request, session, and action is captured with who, what, and when.

3

Retrieve on Demand

Pull recordings, audit logs, and credential proof whenever they’re needed.

YOUR POLICY

Recording	On for VRI
Retention	7 years
Scope	Healthcare clients
Access	Admins only

SRH CAPTURES

- ✓ Policy-Based Recording
- ✓ Full Audit Trail
- ✓ Verified Credentials on File
- ✓ Evidence-Ready Export

WHY ORGANIZATIONS CHOOSE SRH

Recording by policy, not by accident

Record only where rules require—off by default, controlled centrally.

A complete audit trail

Every request, assignment, and action logged with a timestamp.

Credentials you can prove

Interpreter qualifications verified and attached to the record.

Ready for any audit

Pull evidence—recordings, logs, credentials—on demand.
