

One secure platform for every kind of language access.

Manage every aspect of language access—from interpreter scheduling and translation to reporting, compliance, and billing—in one enterprise platform. Staffing Resources Hub gives large organizations a single, governed place to request interpreters, run translation projects, and see exactly how language services are used and spent.

Smart Request

Request an interpreter in plain English—the platform captures language, modality, time and location automatically.

OPI & VRI Scheduling

On-demand and scheduled phone and video interpreting, routed to qualified interpreters on your terms.

Interpreter for a Meeting

Bring certified interpreters directly into Zoom, Teams and Google Meet.

On-Site Interpreting

Book qualified on-site interpreters with confirmation, tracking and mileage handled.

Translation Projects

Document translation from upload to delivery, with formatting preserved and status visible throughout.

Reporting & Analytics

One source of truth for spend, usage and service levels across your whole organization.

Team & Org Management

Mirror your real organization—departments, sites, roles and permissions—in one place.

Compliance, Audit & Recording

Policy-driven recording and a complete audit trail, so every session is accountable and every record is ready.

Billing & Rate Governance

Rates you control and billing you can defend, with client- and program-specific rules.

AI Copilot & Automation

Your team amplified by AI—drafting, routing and surfacing the next best action.

WHY ENTERPRISE TEAMS CHOOSE SRH

- ◆ One platform replaces scattered vendors, phone trees and spreadsheets.
- ◆ Rates and billing you control—defensible down to the program level.
- ◆ Roles, sites and permissions that mirror your real org.
- ◆ Policy-driven compliance and a complete, exportable audit trail.
- ◆ Real-time reporting on spend, usage and service levels.
- ◆ AI copilot that speeds up requests and routing.
