# Add an Interpreter to Any Video Meeting

Bring a qualified interpreter into your scheduled Zoom, Microsoft Teams, or Google Meet call—no separate app for your team or your guests.

*Whether it's an IEP meeting, a patient consultation, a court proceeding, or a government service, SRH helps your team communicate without delay.*

TRUSTED BY ✓ Schools ✓ Government ✓ Healthcare ✓ Courts ✓ Enterprises

## THE CHALLENGE

Getting an interpreter into a video meeting used to mean running two calls at once—the meeting on one screen, the interpreter on another. It's clumsy, and something always gets lost.

## THE SOLUTION

With SRH, the interpreter joins the same meeting your team is already in. Paste the link, pick the language and time, and they're there at the start—on the platform you already use.

## FROM LINK TO LIVE

1

### Paste Your Meeting Link

Drop in your Zoom, Microsoft Teams, or Google Meet invite.

2

### Set Language & Time

Choose the language and when the meeting starts.

3

### Interpreter Joins

A qualified interpreter joins the call at the scheduled time.
