THE CHALLENGE

Booking language services usually means a long form: language, service type, date, duration, location, notes. It's slow, easy to get wrong, and a barrier for busy staff who just need help now.

THE SOLUTION

SRH reads plain language. Type or speak "I need a Spanish interpreter tomorrow at 2pm for a parent meeting" and it extracts the language, service, date, duration, and purpose—then shows you a clean request to confirm.
